

# ACCESSIBILITY

Our whole festival takes place in a park and on a slope, which makes it not always easily accessible. The routes indicated with a green and orange dotted line are wheelchair accessible **with the help of an extra person.**

The routes indicated in a green dotted line are paved and not on a slope. These are accessible individually.

The **Red, Green and Fox** stages are equipped with a wheelchair accessible platform. They are indicated with a green wheelchair icon. The **Black** stage is also accessible, however this stage has no reserved area. **Important:** At the Green stage this zone changed locations this year, with a new access!

The ticket kiosks indicated on this map are made wheelchair accessible.

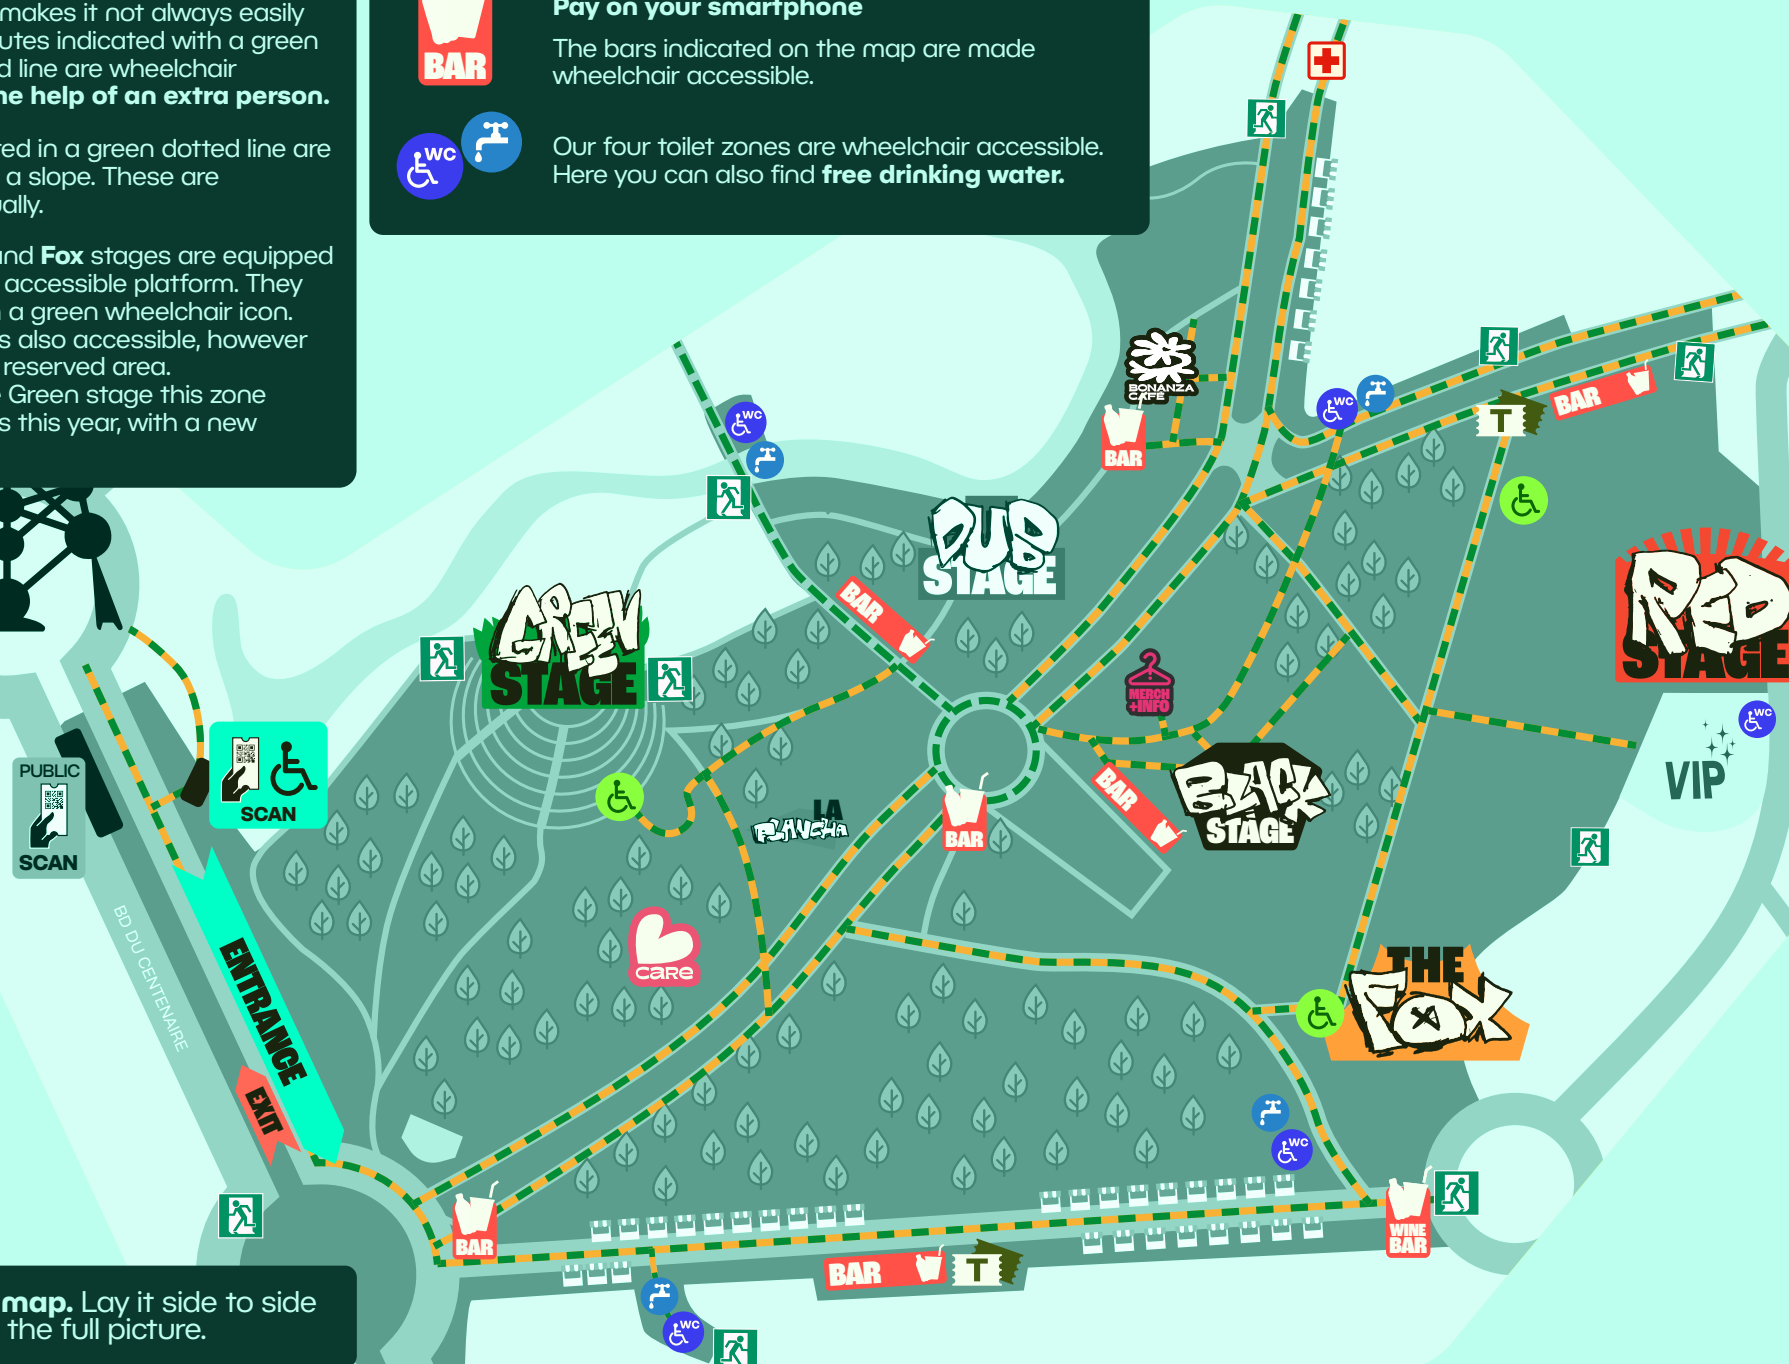

If you find yourself without tickets, **you can always pay at the bar by using Bancontact Pay on your smartphone**

The bars indicated on the map are made wheelchair accessible.

Our four toilet zones are wheelchair accessible. Here you can also find **free drinking water.**

This is a complementary map. Lay it side to side to the universal plan to get the full picture.
